

Manual Chain Pipe Cutting Machine.

This Pipe Cutter with 2.4m Chain is a highly efficient tool designed for professional cutting tasks. With its robust cutting mechanism, it can easily cut pipes up to 50mm in thickness, making it ideal for heavy-duty work.

Key Features:

- **Powerful Cutting Mechanism:** Capable of handling thick pipes up to 50mm, ensuring high performance for demanding tasks.
- **Square and Bevel Cutting Shapes:** Provides versatility by allowing both square and bevel cuts, making it suitable for a wide range of pipe cutting requirements.
- **Single Cone System Speed Control:** Offers precise control over the cutting speed, enabling smooth and accurate cuts for various pipe materials.
- **Manual Drive Method:** The manual operation ensures that the user has full control over the cutting process, which is ideal for precision and safety in professional environments.
- **2.4m Chain Length:** A long chain allows the tool to accommodate large pipes or reach challenging angles, making it highly adaptable for various applications.

Specifications:

- **Effective Pipe Diameter:**

Standard Chain (2.4m or 96 inches) accommodates pipe diameters from 114mm to 600mm (4" to 24").

For pipes larger than 600mm, additional chain can be added, offering flexibility for cutting larger diameter pipes.

- **Cutting Thickness:**

Capable of cutting pipe thicknesses up to 50mm, making it suitable for heavy-duty work on thick-walled pipes.

- **Cutting Shape:**

Offers square and bevel cuts, with bevel cuts up to 45°, providing versatility for different pipe joining and fitting applications.

- **Speed Control:**

Features a single cone system speed control, which allows for fine adjustment of the cutting speed for greater precision and efficiency during use.

- **Drive Method:**

Operates with a manual drive method, ensuring full control by the operator over the cutting process, which is ideal for precision work in professional environments.

- **Nozzle:**

Equipped with A-NML 3/8 and 3/64 nozzles, providing the flexibility to cut various pipe materials with efficiency.

Overall, this pipe cutter is an excellent choice for professionals who need a reliable and versatile tool for efficient pipe cutting in both commercial and industrial settings.
