POSITIONER

Compact / Reliable / High Quality

POSITIONER

With proper fixture, a welding positioner grips and rotates the workpiece setting up ergonomic working posture during welding, machining and assembly of workpieces for the operator and providing faster and more efficient process.

ProArc PT series welding positioners allow steel fabrication shops operator to position the jobs for 'downhand' position in the shortest possible time, without the use of cranes and manpower. The constructions of ProArc positioners provide safe, long-life operation and trouble-free service.

• PT-500

• PT-103

• PT-203

Features

- Capacities range from 100 to 20,000 kilograms 360° degree rotation, 135° degree tilts on all models
 - High frequency protected
 - Machined "T" slots table with pilot and through hole
 - High quality worm gear reducers for smooth operation and minimal backlash
 - Free maintenance grounding system.
 - AD type adjustable table height option available.
 - Standard forward/reverse rotation and variable speed control
-

POSITIONER

Optional accessories

- Current brush with higher amperage capacity
- Grippers
- Servo motor for rotational axis
- Variable speed foot control

• PT-204

CB-102 / CB-102D

Digital controller with reference function for 100kg, 200kg positioner

CB-102D

CB-500

Advanced ServoArc controller

AD type

Adjustable height positioner

PG-150

3-Jaw gripper
OD 4 - 150 mm

PG-450L

3-Jaw gripper
OD 4 - 450 mm

PG-500

3-Jaw gripper
OD 4 - 500 mm

POSITIONER

Specification

Model	Unit	PT-103(4)	PT-203(4)	PT-500(M)	PT-1000	PT-2000	
Power input	~	1Ø 100~240VAC 50/60Hz			1Ø 220VAC 50/60Hz
